

## **Mr. MAURIZIO URSINI**

### **Date of birth**

February 18, 1955

### **Education**

- Faculty of Medicine (Exams passed for 8 Courses attended), University of Milan, 1975-1978
- High School Degree, Milan, 1975

### **Employments**

- 1986....: Lab Technician, Department of Chemistry, Materials, and Chemical Engineering, "Politecnico di Milano" Technical University
- 1983-1984: Lab Technician, Faculty of Medicine, University of Milan
- 1981-1982: Lab Technician, Department of Biology, University of Milan

### **Research Collaborations**

- Synthesis of heteroaromatic compounds by the functionalization of heterocyclic bases *via* photochemical approaches, in collaboration with Prof. Tullio Caronna, Department of Chemistry, Materials, and Chemical Engineering, "Politecnico di Milano" Technical University
- Synthesis of chiral synthons *via* enzymatic approaches, in collaboration with Prof. Dario Ghiringhelli, Department of Chemistry, Materials, and Chemical Engineering, "Politecnico di Milano" Technical University

### **Professional Skills**

- HPLC, GC, DSC, CA and IR techniques

### **Publications**

- papers in referred journals: 7
- communications to scientific meetings : 20
- chapters in books : 1
